

Control Unit EFC16

The EFC16 control unit is an electronic speed control for manual operation of the chimney fan.

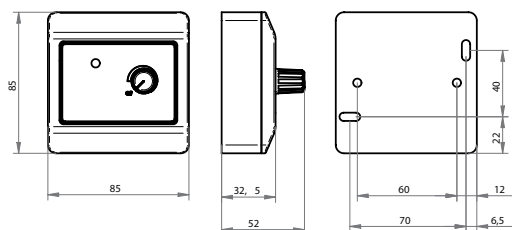

With the control unit EFC16 the speed of the chimney fan motor is continuously controlled in the range 35-100%.

The EFC16 control unit has a knob with

integrated shut-off function and a built-in low end, and an LED that indicates the operating status.

The EFC16 is a manual control unit with a rotary knob for switching on and off the chimney fan, and for setting the chimney draught on the desired level.

Technical Data

Description	Data EFC16
Height [mm]	85
Width [mm]	85
Depth [mm]	52
Load [Amp]	Max. 1,5 A
Fuse [Amp]	T 1,6 A
Voltage	230 VAC, 50 Hz
Ambient temperature	0 °C bis +40 °C
IP rating	IP30
Material	ABS
Colour	White
Suitable for the following chimney fans	RS009, RS012, RS014, RS016 RSV009, RSV012, RSV014
